CORE OFFERINGS:

Seasonal Projects

We get it, you're running 95% capacity all year and busy season is right around the corner. You need a partner who is capable of more than just inventory overflow storage, you need a full logistics partner. We can offer project-based and on-going proposal options.

Ongoing Capacity Augmentation

You're at capacity, and you have a large client who wants to use your services or buy your product. Don't turn down the business, make room by using MyPorter. We'll work within your financial constraints to create a custom program that allows you to grow and scale.

Turn-Key Inventory Overflow Solutions

MyPorter is far from just dead storage. All of the following are available (a la carte) for your needs:

- Inventory Management and Control
- Technology-Based Inventory Tracking and Cycle Counts
- Dedicated 26 Foot Box Truck Fleet for Final Mile
- Pick, Pack, Ship
- Shipping / Receiving of Palletized or Floor-Loaded Pallets
- Cross-Docking
- Reverse Logistics
- Fulfillment

Flexible Terms and Speed to Contract

At MyPorter, we believe in flexibility. Month to month or a fixed contract, we're happy to work within your constraints. Our SOW's are typically one page or less, negotiation process to final signature often takes less than 24 hours.

THIRD PARTY LOGISTICS (3PL)

CASE IN POINT

Atlanta Third-Party Logistics Provider Uses MyPorter for Two-Month Engagement

The Challenge

A local Atlanta 3PL came to MyPorter after signing a large client at Hartsfield-Jackson Airport in Atlanta, the largest airport in the world. Their new contract far exceeded their ability to service and lead time on a new warehouse space would extend far beyond the deadline. They needed MyPorter to take product from their warehouse and serve as an auxiliary outlet for a high volume of product.

How we Helped

To proactively address these issues, MyPorter sent a project manager out to the company's current industrial space. Working with the Senior Warehouse Manager running the distribution center, MyPorter delivered a flexible solution for each and every pallet coming from either the DC or their direct suppliers. A simple pricing structure was created for storage, handling services for inbound / outbound, exception management (e.g., pallet re-stacking, shrink wrapping), and full suite of technology visibility / reporting services using the MyPorter technology stack.

Results

The client was thrilled with MyPorter's performance, offering to serve as a reference for future clients and investors. MyPorter is integral to their ability to hit growth targets, expanding their scale seamlessly with existing operations. MyPorter's technology platform allowed the client to have a clear picture of what inventory was in the MyPorter DC at any one time and enabled seamless inbound and outbound requests with minimal manual work. MyPorter is proud to still count them as a client today.

"MyPorter was professional, efficient, and no-nonsense. They did their job well and really saved our bacon" - Senior Warehouse Manager
